

WOLFEBORO LIBRARY

Go Green Campaign

The *Go Green* Campaign is ready to accept donations for the greening of the library grounds. Following the successful building of the library interior, the next phase for the new library is to complete the exterior landscaping. The beautiful design of the exterior grounds, generated by the landscape architectural firm of Horsley-Witten, is highlighted below.

The landscape design features many beautiful

trees, flower gardens, a storytime area, an inspiration path and steps, wetlands garden and bridge, and building plantings. In addition, the plan improves handicap access, provides green buffers for neighbors, solves parking lot drainage issues, removes invasive species and provides a welcoming face to Wolfeboro for residents and visitors alike.
